RE: Report on Gaming Tax Revenue through April 2010

For Council's review, the attached schedules present the gaming tax revenue activity through April 2010 and prior fiscal years.

The city collected \$14.15 million in gaming tax revenue for the tenth month of the fiscal year, which was 6.53% less than the prior month of March. The April 2010 collection was a 4.5% increase over April 2009.

Adjusted gross casino gaming receipts came in at \$118.91 million for the month of April 2010. This represented a 6.57% decrease over the prior month and a 6.76% increase over April of 2009. Chart 2A "Monthly Detroit Gaming Receipts" through a twelve-month moving average trend line shows slight positive growth since last April, approximately .95%, among the combined casino receipts.

There is not a one-to-one relationship between the adjusted gross receipts and the tax revenue collection increases due to two factors besides rounding. First, there is the fact that MGM and Motor City casinos began paying the city 1% less because of the permanent casinos opening on October 3 and November 29 of 2007. This reduction to the city is part of state Public Act 306 of 2004, when the legislature amended Public Act 69 of 1997, which was the original casino gaming legislation. P.A. 306 increased the wagering tax by 6% of which 2% went to the City of Detroit. The caveat was that when the permanent casino had been certified by the state gaming board as having operated for 30 consecutive days and once the city determined the project was complete, 5% of the 6% additional wagering tax would be eliminated, with the remaining 1% allocated to the city where the casino is being operated. Greektown has continued to pay the 6%

additional wagering tax – 4% to the state, 2% to the city – until its permanent status was agreed to by the Administration and approved by the State Gaming Commission, which occurred on March 9, 2010.

Second, the amended development agreement of August 2002 between the city and the casinos, which is separate from the state law, has all casinos, beginning in January 2006, paying an additional 1% over the state law, plus another 1% when the casino reaches \$400 million in gross receipts in a calendar year. For the fourth year in a row, due to MGM and Motor City reaching \$400 million in the calendar year, gaming tax collections were projected to spike by \$10.0 million between September and December. The final total was \$9.93 million.

MGM did reach \$400 million in September, and should have transferred to the City the initial \$4.0 million of the additional 1% within 10 days as stipulated in the development agreement. It does not appear that the amended casino development agreement included any penalty for late remittance, which MGM has taken advantage of each prior year. This year, MGM remitted the \$4 million much closer to the timetable in the development agreement than in prior years. Motor City did reach \$400 million during the month of November and has consistently remitted the funds to the city within the proper timeframe as outlined in the development agreement. Greentown did not reach that threshold. Interestingly, Greentown's collections have improved by 15.35% in the first ten months of the fiscal year compared with the same period last year. However, the collections at MGM and Motor City have decreased over the same period, MGM by 1.45% and Motor City by 5.17%, which reduced the amount of the additional 1%, estimated at \$10 million, paid to the City in this fiscal year. Collectively, the casinos' receipts have increased by 1% in the first ten months of the fiscal year, compared with the prior fiscal year.

The 2009-2010 budget for gaming fee revenues is \$176.6 million, a 9.3% decrease over the 2008-2009 budget of \$194.78 million. Based on existing data, we are currently projecting a year-end deficit of \$2.8 million. The 2010-2011 Mayor's recommended budget is \$173.36 million.
